6. Failure to provide the cost/benefit analysis when the daily mileage is 200 miles or more will reduce the reimbursement rate.
7. Mileage vs Air Travel - When travel is by personally owned automobile, the total of the expenses reimbursed, including meals and lodging, should not exceed the total cost of the trip using the most economical public air transportation fare available, also including meals and lodging. Agency Heads or their designees are authorized to grant exceptions to this policy when justified. Comparative statements should be attached to the Expense Report for reimbursement.
8. The reimbursement rate is reduced for state employees under certain circumstances or for any person who travels over 15,000 miles in a fiscal year. Contact the Accounts Payable Manager for additional details.
