Consolidated Certification Process foesearchCenters (Concert) Center Profile

Instructions and definitions

CenterName

The official or proposedame of the research institute or centerlypically, the strategic aspects of center administrative appointmentAdditional directory information may be provided for (e.g., codirectors).

Supervisor

The supervisor must be a department chair, dean, or Vice President.

Lead Point of Contact

In some cases, it may be sensible to designate someone dath the director to coordinate the certification process.

Start date of plan

Indicate the first semester and academic year of the proposed business plan.

Director Annual Percentage Workload Devote@tenter Administration

Projected annuapercentage of workload devoted to administeting centerFor codirected centers, add an additional field. Note that this is time devoted to center administration separate from time that may be allocated to sponsored program activity aching

Typically, this will be in the form of departmental research or research administration workload allocation ("course release)), here one course release for one semester is equivalent to 6.25% annual workload. Voluntary faculty use of customary departmental research workload, stipend arrangements, and hybrid models are permissible in white constraints of Uniform Guidance and ODU policy.

Required attachment: Signed supervisor workload letter of agreement Attach a signed letter of agreement from the director's supervisor LOA should state that the supervisor agrees to the specific workload allocation of the dispersional in the business plan.

Required: Signed director workload letter of commitment

The faculty director should briefly describe holdey derived their percentage administrative workload allocation. For example, voluntary allocation of faculty departmental research, administrative research, summer stipend, etc., and indicate their commitment to using the allocation as described in the business plan.

Research Center or Institute Constitute Members

Constituent members include the directorl,-time teaching and research faculty, faculty professionals and administrators, and research scientists who have workload allocated to supporting RIC activities inclusive of projected allocation to sponsored projects annual workload percentage reported here is a summary estimate from all these sources fore. Sness r.r.

Affiliated Faculty and Staff (optional)

Affiliated faculty and staff electively collaborate with centenstituents to promote the mission, for example, to provide input in the planning process, sufurniting proposals, conduct affiliated academic program activity, produce holarship, produce reative works, utilia RIC services, or conduct outreach activities.

Strong proposals will include identified affiliated faculty and staff with corresponditings of support describe the nature of affiliated faculty engagement

Optional attachment(s): Signed letters of support from affiliated faculty and staff (Appendix

Affiliated faculty and staff may convey letters of support individually oreconvely. These letters of support might indicate participation in the development and/or review of the business plan, willingness to collaborate with constituents, or perceived benefits of the center to the university mission

Prospective Affiliated Faulty and Staff

This section briefly and generally describes faculty and staff who may engage in or benefit from the RC as described above, but who are not currently involved in the center

Affiliated Students (optional)

The section briefly angenerally describes the type and numbers of undergraduate and graduate students who arengaged iror benefit from RIC activities, and the nature of the engagement.

Optional attachment(s): Tabulation of current and former students (Appendix A)

In some cases, it may strengthen the proposal submission if a tabulation of students is included, which would list students, departments, degrees, advisors, significant accomplishments, et cetera. The director decides whether to include the tabulation wells its form and content

Institutional Collaborator (optional)

List regular interinstitutional collaborators, if anylong with a brief description of collaborative activities and primary points contact. Do not include institutions whose primary role is that of a funding agency.

Prospectivenstitutional Collaborations (optional)

Briefly describeany interinstitutional collaborations the center intends to develop over the next 5 years (more detail make provided in the business plan).

Active sponsored research

List the ODU principal investigator and home unit of the ODU principal investigator for sponsored program awards that were facilitated by the center and active at the time the certification proposal is being considered n cases where ODU is a subcipient, include only the ODU portion of the award amount.

For new centers, includertinent active sponsored research for the proposed director and constituents.

Proposed sponsored research

List the ODU principal investigator and home unit of the ODU principal investigator for proposals facilitated by the center for the previous three years. Indicate amount requested and outcome of the proposal (not funded, pending).

For new centers, includertinent proposals for the director and constituents.

Prospective Sponsored Research

Succinctly describe generalponsored research development plans for the upcoming five years

Appendix A: Letters of agreement, commitment, and support Attach required and optional letters.

Appendix B: Curriculum Vitae of director amountaituent members

Attach abbreviated CV (5 pages) of the director and constituent members.
