Academic Program Assessment Rubric

Academic Program Assessment Rubric

Part 3: Providing evidence of seeking improvement based on analysis of results						
Exemplary	Meets Standard	Approaches Standard	Needs Attention			
Interpretation of Results: Evaluate the meaningfulness of the results based on a reflection of student learning and an analysis of assessment results						
Interpretation of results are	Mostly evaluates results, addresses patterns, and/or	Minimally describes results, patterns, or	Little or no attempt			
above and beyond criteria in	describes specific strengths and/or weaknesses related to	student learning and the interpretation is	is made to interpret			
meets standard (e.g.	student learning and the interpretation could support	insufficient to support programmatic	the results;			
considers the specific components that define the outcome; identifies possible areas of improvement, thus initiating future actions)	programmatic decisions ; as appropriate, compares data from differing delivery methods; interpretation includes	decisions ; as appropriate, does not compare differing delivery methods;	Little or no attempt is made to share			
	information about how well students are learning and why (e.g. how courses, experiences, and/or the assessment process might have affected the results);	Assessment results are minimally shared and it is unclear how they support program decisions;	assessment results to support support			
	Appropriate collaboration and sharing of assessment results to support program decisions is indicated ;	Provides an interpretation for at least one result				
	Provides an interpretation for at least two results
