Introduction

Old Dominion University supports Internal Audit, as defined by the Institute of Internal Auditors, as "an independent, objective assurance and consulting activity designed to add value and improve an organization's operations. It helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes." This charter as adopted herein will serve as a guide for the activities of the Internal Audit Department at Old Dominion University.

This charter does not include, nor is it intended to include, all of the department's duties or responsibilities as they may exist from time to time.

This charter will:

1. Provide a written record of formally approved policies of the Internal Audit Department;
2. Provide a basis for the evaluation of the performance of the Internal Audit Department by the management of the University and the Audit Committee of the Board of Visitors;
3. Serve as a basic document in the organization and administration of the Internal Audit Department.

Internal Audit was established to assist the Board of o67 -ann()-10 (e)4 ((he)4 ()>BDC -35dd[de)4

The Internal Audit Director may also present materials, such as the annual audit plan, to the Administration and Finance Committee in an informational capacity.

Code of Virginia §2.2307 et seq., established the Office of the State Inspector General (OSIG) effective July 1, 2012, and charged the office with providing services in three core areas: (1) investigating complaints alleging fraud, waste, abuse, or corruption; (2) conducting performance reviews of executive branch agencies; and (3) coordinating and requiring standards for internal audit programs existing as of July 1, 2012, and developing and maintaining other internal audit programs. As the OSIG is required to coordinate and require standards for those Internal Audit programs, the Old Dominion University Internal Audit Department will adhere to any OSIG directives.

Authority

To the extent permitted by law, the Internal Audit Department shall have timely and unrestricted access to all university activities, properties, personnel, and records which are relevant to fulfillment of the department's mission to the University.

It is understood that certain items of the university are confidential in nature and special arrangements will be made by the audit department when examining and reporting upon such items.

Independence

System Planning and Development

The Internal Audit Department will participate, in an advisory capacity, in the planning, development, implementation, and modification of major computerized and manual systems to ensure that:

1. Adequate controls are incorporated in the system;
2. A thorough testing of the system is performed at appropriate stages;
3. System documentation is complete and accurate; and
4. The intended purpose and objective of the system implementation or modification has been met.

The internal auditor participating in such a review should ensure that the extent of participation does not affect independence, thus suggested audit trails or controls will be transmitted through formal correspondence.

Responsibility for the Detection of Errors or Irregularities

The staff of the Internal Audit Department have a professional responsibility to conduct reviews with an attitude of professional skepticism, recognizing that the application of internal auditing procedures may produce evidential matter indicating the possibility of errors or irregularities.

If the internal audit staff believe that an error or irregularity may exist in an area under review or in any other area of the university, the Internal Audit Director shall be notified at once. The Internal Audit Director should consider the implications of such an error or irregularity and its disposition with the President and/or the President's designated representative. If the Internal Audit Director believes that both of the individuals are directly involved, then the disclosure of potential errors or irregularities should be made directly to the chairman of the Audit Committee of the Board of Visitors.

The Internal Audit Department cannot be solely responsible for the detection and prevention of all errors and irregularities which may occur within the university. This is a responsibility shared by all members of the university management team.

Cooperation With External Auditors

The Internal Audit Department shall assist the Audit Committee of the Board of Visitors in the evaluation of the external auditors' examination of the University.

Audit Plan

Each year, a proposed detailed audit plan for the next fiscal year will be submitted by the Internal Audit Director to the Audit Committee. Upon approval of the plan by the Audit Committee, the Internal Audit Director will initiate audits pursuant to the plan.

A block of time will be set aside for unexpected audits, special requests and consulting, and cases received from the Commonwealth's fraud, waste and abuse hotline. In excess of this, any additions to the plan will require written documentation as to the need for such additions with final approval for the request being made by the President and Committee.

A copy of all approved revisions to the audit plan will be submitted to the President and the Audit Committee.

Audit Reports

At the conclusion of each audit, the department or activity audited will be provided an opportunity to respond in writing to the findings, conclusions, and recommendations of the Internal Audit Department.
