

Canvas: Publish Courses

1: From the Global Navigation bar/Menu, click **D**. Publish unpublished courses by selecting the **U** button from the course card (automatic save).

2: Navigate to your course. From the Course Navigation Menu, click the **H I** tab. Click **U** or **U** at the top right of the page depending on the desired status change (automatic save). The course cannot be unpublished once students submit work.

Canvas: Upload Files

1. In your Canvas course, click **F**.
2. Click the **U** button (top right). A pop-up allows you to search your computer's files. Click the title of the file you want to upload, then **U**. You can also upload by dragging and dropping an item from your computer's files into the open pop-up window.
3. Upon completion, view the file by clicking on the file name. To exit, click **C** in the upper right corner.

Notes: The **+ F** allows for creating a folder to organize files, not for uploading a folder.

Canvas does not support file uploads larger than 5 GB. Video/audio uploads must be through Kaltura and can be up to 2 GB in size.

Canvas: Course Settings

In course settings, make updates, see different users and sections, and modify the course navigation. Settings are only available to instructors.

1. From the course navigation menu, click **S**.
2. Course Details display an overview including the course name, the course code, the course license, time zone, etc.
3. Click **C** **D** in the bottom right corner to save changes.

Some items are not available for editing due to the permission settings set for ODU instructors.

Canvas: Clear Student Activity

1. Open your course and, from the Course Navigation Menu, click **S**.
2. Choose **C** **C** on the right side of the page. Read the warning pop-up carefully before choosing **C**.

Warning: This is a permanent action and cannot be undone.

Canvas: Student View

View a course from the student's perspective and create a Test Student.

1. Navigate to your Canvas course and, from the Course Navigation Menu, click **S** (top right) to view the course as a student.
2. To clear all test student activity, click **C** (bottom right).
3. To exit the student view, but keep the Test Student data, click **L** (bottom right).

Note: This is a permanent action and cannot be undone. To see the Test Student from a different perspective, use the Test Student option.
